§ 93.420

§ 93.420 Ruminants from Canada for immediate slaughter other than bovines, sheep, and goats.

The requirements for the importation of sheep and goats from Canada for immediate slaughter are contained in §93.419. The requirements for the importation of bovines from Canada for immediate slaughter are contained in §93.436. All other ruminants imported from Canada for immediate slaughter, in addition to meeting all other applicable requirements of this part, must be imported only through a port of entry listed in §93.403(b) or as provided for in §93.403(f) to a recognized slaughtering establishment for slaughter, in conveyances that must be sealed with seals of the U.S. Government at the port of entry. The seals may be broken only at a recognized slaughtering establishment in the United States by an authorized USDA representative. The shipment must be accompanied from the port of entry to the recognized slaughtering establishment by APHIS Form VS 17-33, which must include the location of the recognized slaughtering establishment. Such ruminants shall be inspected at the port of entry and otherwise handled in accordance with 8 93 . 408 .

(Approved by the Office of Management and Budget under control number 0579-0277)

[72 FR 53377, Sept. 18, 2007]

§93.421 Special provisions.

(a) In-bond shipments from Canada. (1) Cattle, sheep, and goats from Canada transported in-bond through United States for immediate export shall be inspected at the border port of entry and, when accompanied by an import permit obtained under §93.404 of this part and all conditions therein are observed, shall be allowed entry into the United States and shall be otherwise handled as provided in paragraph (b) of §93.401. Ruminants not accompanied by a permit shall meet the requirements of this part in the same manner as ruminants destined for importation into the United States, except that the Administrator may permit their inspection at some other point when he or she finds that such action will not increase the risk that communicable diseases of livestock

and poultry will be disseminated to the livestock or poultry of the United States.

(2) In-transit shipments through Canada. Ruminants originating in the United States and transported directly through Canada may re-enter the United States without Canadian health or test certificates when accompanied by copies of the United States export health certificates properly issued and endorsed in accordance with regulations in part 91 of this chapter: Provided, That, to qualify for entry, the date, time, port of entry, and signature of the Canadian Port Veterinarian that inspected the ruminants for entry into Canada shall be recorded on the United States health certificate, or a paper containing information shall be attached to the certificate that accompanies the ruminants. In all cases it shall be determined by the veterinary inspector at the United States port of entry that the ruminants are the identical ruminants covered by said certificate.

(b) Exhibition ruminants. Ruminants from the United States which have been exhibited at the Royal Agricultural Winter Fair at Toronto or other publicly recognized expositions in Canada, including racing, rodeo, circus, or stage exhibitions in Canada, and have not been in that region for more than 90 days are eligible for return to the United States without Canadian health or test certificates, if they are accompanied by copies of the United States health certificate, issued and endorsed in accordance with the export regulations contained in part 91 of this chapter for entry into Canada: Provided, That all ruminants offered for re-entry upon examination by the veterinary inspector at the U.S. port of entry, are found by the inspector to be free of communicable diseases and exposure thereto and are determined to be the identical ruminants covered by said certificates or are the natural increase of such ruminants born after official test dates certified on the dam's health certificate.
